A HotZyme Project Sponsored Training Event

Training The Next Generation of Scientists in Metagenomics

Friday, May 31, 2-7pm

The HotZyme Metagenomics Training Café is your opportunity to **Learn** about latest scientific discoveries in metagenomics; **Connect** with top academics, their research teams and industrial employers; and **Yield** interest for the HotZyme project and a career in metagenomics.

The sponsor of this event is the HotZyme project - a large-scale research project supported by the FP7 of the EU, with aims to identify such enzymes from hot terrestrial environments, using metagenomic-screening methods. The consortium is composed of 13 partners with strong expertise in Microbiology, Biochemistry, and Industrial Biotechnology.

**2-7 p.m. on Friday, May 31
Central Conference Room,
National Hellenic Research Foundation,
Athens**

This is a free event. RSVP to Efthymios Ladoukakis at ladoukef@central.ntua.gr
